Our Creator, Jesus Christ, made the entire universe in six days. Everything He created was good, including the first humans, Adam and Eve. But they disobeyed God, and the world became cursed. After the Fall, the evil of mankind only got worse. So, God destroyed the earth in a global flood, but He saved a man named Noah, his family, and all kinds of animals on the Ark.

Most fossils today represent creatures that were buried rapidly by the Flood. They remind us of God's judgment. Our Creator won't ever flood the earth again, but we're still separated from Him. That's why God sent His Son to die for our sins. By trusting Jesus as your Savior, you can live forever with Him. It's the most amazing plan of rescue ever!

Fill in the Blanks

"For God so loved the _____ that He gave His only
begotten Son, that whoever _____ in Him should
not perish but have everlasting _____." (John 3:16)

T. rex

How old are fossils, really?

- ✓ Fossils are formed when once-living things get covered in sediment quickly, before they have a chance to decay or get eaten by scavengers.
- ✓ Today, fossils don't form often. Most fossils are from animals and plants that were buried rapidly during the global Flood only 4,500 years ago.
- ✓ Some people believe that fossils are millions of years old, but many fossils contain soft tissues, like blood vessels and bone cells, that can't last that long.
- ✓ There are fossils on every continent because the entire world was once underwater!
- ✓ At ICR we say, "Floods form fossils fast."

Name the creature represented by each fossil using the list below.

Camarasaurus
Stegosaurus

pteroactyl
Tyrannosaurus

Liopleurodon
Leptoceratops

Spinosaurus
Triceratops

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

Answers for Word Scramble: fossil, flood, Genesis, creation, fall, earth, animal; Answers for Fill in the Blanks: world, believes, life; Answers for fossil matching: 1. Triceratops, 2. Stegosaurus, 3. pterodactyl, 4. Leptoceratops, 5. Spinosaurus, 6. Liopleurodon, 7. Camarasaurus, 8. Tyrannosaurus
