You are deeply loved by God! This certain truth is expressed in a Scripture that sums up the gospel of Jesus Christ: "For God so loved the world that He gave His only begotten Son, that whoever believes in Him should not perish but have everlasting life" (John 3:16). We all need Jesus as our Savior because we are all sinners and can't by our own efforts fulfill the requirements of God's justice. But Jesus Christ, our Creator, could satisfy the Father's holiness, so He

suffered the punishment for sin on our behalf by dying on the cross. Jesus was made to be sin for us so that—in the most remarkable exchange ever—we might receive the righteousness of God. We can be sure of this because Jesus rose again from the dead. What a gift of love! You can have the promise of everlasting life when you turn from your sin and believe in Jesus Christ as your Lord and Savior. To learn more, visit [ICR.org/gospel](https://www.icr.org/gospel).

At the Institute for Creation Research, we want you to know God's Word can be trusted with everything it speaks about—from how and why we were made, to how the universe was formed, to how we can know God and receive all He has planned for us. That's why ICR scientists have spent more than 50 years researching scientific evidence that refutes evolutionary philosophy and confirms the Bible's account of a recent and special creation.

[Jesus Christ] is the image of the invisible God, the firstborn over all creation. For by Him all things were created that are in heaven and that are on earth, visible and invisible, whether thrones or dominions or principalities or powers. All things were created through Him and for Him. And He is before all things, and in Him all things consist. And He is the head of the body, the church, who is the beginning, the firstborn from the dead, that in all things He may have the preeminence. For it pleased the Father that in Him all the fullness should dwell, and by Him to reconcile all things to Himself, by Him, whether things on earth or things in heaven, having made peace through the blood of His cross.

(Colossians 1:15-20)

Dear Friends,

At the Institute for Creation Research, our mission is not only to conduct research demonstrating how science confirms Scripture but also to share this with others so they, too, may glorify Jesus as the Creator and know the truth of the gospel.

In light of this, we present this catalog in the hope that these resources will encourage and strengthen you. ICR publishes books and produces DVDs that are designed to equip believers to face the challenges of this world. In a time when the Darwinian worldview permeates every sphere of society and culture, it's more valuable than ever to know we can trust the truth of God's Word in everything it says.

We also invite you to share these resources with people who are unsure of the complete reliability of Scripture. As always, we are deeply grateful to all those who have worked with us to spread God's creation truth.

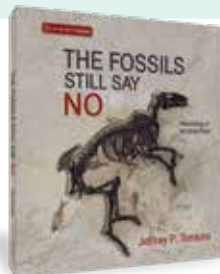

In the precious name of our Savior,

ICR President Randy Guliuzza

The Institute for Creation Research's In-Depth Science series offers comprehensive evidence supporting the biblical account of Earth's history. Written by Ph.D. experts, these beautiful, full-color books address some of the most important topics in the evolution-creation debate and demonstrate that science aligns with the Bible and not with evolutionary theories.

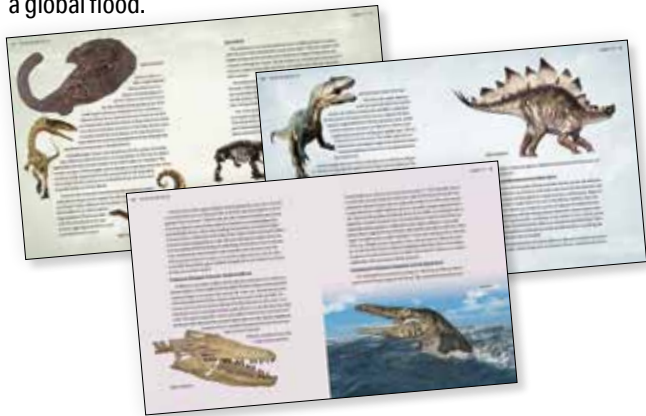

The Fossils Still Say No ***Paleontology of the Global Flood***

\$29.99 | BTFSSN
Hardcover
Jeffrey P. Tomkins, Ph.D.

Dr. Tomkins integrates fossil evidence with ICR's geological research to provide a more complete picture of Flood paleontology. The evidence shows that the fossils say no to evolution and yes to a global flood.

Chimps and Humans ***A Geneticist Discovers DNA Evidence That Challenges Evolution***

\$29.99 | BCAH | Hardcover
Jeffrey P. Tomkins, Ph.D.

In this book, Dr. Tomkins uses genetic data to dismantle evolutionary assertions of a close human-chimp relationship. Human and chimp genomes are too far apart to make a common evolutionary ancestor even remotely plausible.

Carved in Stone ***Geological Evidence of the Worldwide Flood***

\$39.99 | BCIS | Hardcover
Timothy Clarey, Ph.D.

Dr. Clarey examines the sedimentary rock record continent by continent, layer by layer. The data provide clear geological evidence of a year-long progressive flood like the Bible describes.

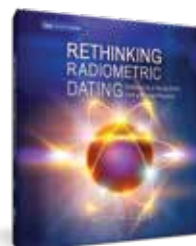

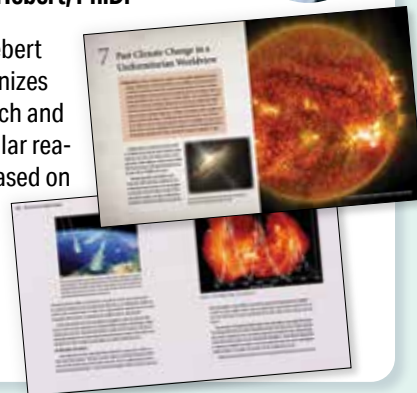

The Ice Age and Climate Change ***A Creation Perspective***

\$34.99 | BTIAACC | Hardcover
Jake Hebert, Ph.D.

Dr. Hebert scrutinizes climate science and research and finds flawed theories, circular reasoning, and conclusions based on outdated data. Christians have biblical and scientific reasons to reject climate change alarmism.

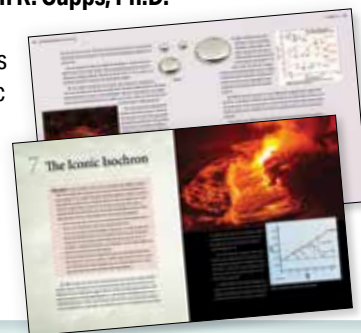

Rethinking Radiometric Dating ***Evidence for a Young Earth from a Nuclear Physicist***

\$29.99 | BRRD | Hardcover
Vernon R. Cupps, Ph.D.

Dr. Cupps delves into details about the major radiometric dating methods, Earth's magnetic field, radiohalos, zircons, and soft tissue in fossils to uncover what the evidence actually reveals about Earth's age.

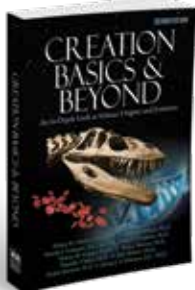

UPDATED SECOND EDITION

Creation Basics & Beyond
An In-Depth Look at Science, Origins, and Evolution

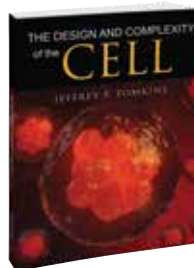

\$9.99 | BCBAB2E

This book provides a thorough introduction to the basic issues involved in the creation-evolution debate. Covering the fields of biology, geology, astronomy, and more, it demonstrates that not only does the scientific evidence not support evolution, but it also strongly confirms the biblical account of creation. Written by ICR's team of scientists and scholars, this revised and expanded edition offers the most up-to-date science impacting the questions of origins.

The Design and Complexity of the Cell

\$11.99 | BTDACOTC
Jeffrey P. Tomkins, Ph.D.

We are taught that the apparent design observed in cells is the result of random processes operating over eons of time. Such a belief often ignores the implications of engineering and design. Dr. Tomkins and his colleagues developed this book to explain the intricate processes of cells and give insight for "clearly seeing" the hand of the Creator (Romans 1:20).

Ancient and Fossil Bone Collagen Remnants

\$29.99 | BAAFBCR
Brian Thomas, Ph.D.

Dr. Thomas' Ph.D. dissertation reveals results from research designed to address the presence and decay rate of collagen in ancient bones. How does science resolve the dilemma of having short-lived collagen in supposedly very old dinosaur bones? This book provides the solid technical background needed to address this key question.

The Fossil Record
Unearthing Nature's History of Life

\$14.99 | BTFR | Hardcover
John D. Morris, Ph.D., and Frank Sherwin, D.Sc. (Hon.)

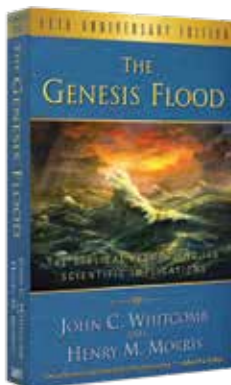

Unearth the evidence of Earth's history and find out how the fossil record is incompatible with evolution but remarkably consistent with the biblical account of creation. Complete with an extensive appendix on supposed transitional fossils.

The Genesis Flood
The Biblical Record and Its Scientific Implications

\$16.99 | BTGFFAE
John C. Whitcomb, Ph.D., and Henry M. Morris, Ph.D.

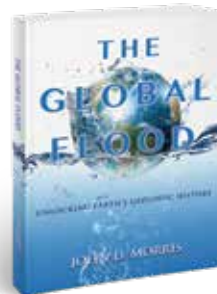

If Genesis is true, then the Flood must explain most stratigraphic and fossil evidence. *The Genesis Flood* by Drs. Henry Morris and John Whitcomb offers a definitive treatment of the biblical and scientific evidence of the global Flood. This book, which sparked the modern creation science movement, is a must-have for every Christian's library.

The Global Flood
Unlocking Earth's Geologic History

\$19.99 | BTGFO
John D. Morris, Ph.D.

In 1961, *The Genesis Flood* by Henry Morris and John Whitcomb demonstrated the indisputable evidence for a worldwide flood. In *The Global Flood*, Dr. John Morris offers a "layman's version" of that groundbreaking book and clearly demonstrates the accuracy of the biblical account of the Flood. God's Word is true in matters of science and history.

Dinosaurs and the Bible
\$5.99 | BDATB1
Brian Thomas, Ph.D.

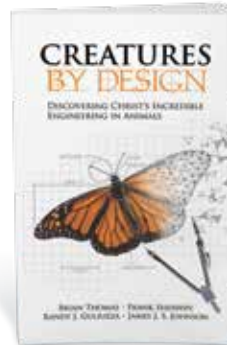

Where did dinosaurs come from? Where did they go? How long ago did they live? Dinosaurs are often portrayed as living millions of years before man arrived on Earth—but what does the Bible have to say?

Creation Q&A 2
Answers to 32 More Questions about the Bible and Evolution
\$7.99 | BCQAA2

The creation-evolution debate raises important questions for scientists and non-scientists alike. Can life spontaneously generate? Do fossils show that humans came from apes? Does the Bible actually deny evolution?

Volcanoes
Earth's Explosive Past
\$9.99 | BVEEP
